PROJECTS

ONLINE FURNITURE WEB APP

Full-stack web app for browsing, ordering, and managing furniture products online.

Tools & Technologies:

Java, Spring Boot, Thymeleaf, HTML/CSS, Bootstrap, MySQL, Hibernate, Spring Data JPA

Key Contributions:

- Developed APIs for products, orders, and user registration.
- Implemented secure role-based authentication.
- Designed responsive UI with Bootstrap and Thymeleaf.
- Managed data with MySQL and JPA.
- Enabled CRUD operations and real-time inventory updates.

AY MANAGER SYSTEM

Description:

An academic year management system designed for educational institutions to manage academic sessions and term settings.

Tools & Technologies:

Java, Spring Boot, JSP/Servlets, MySQL, Spring MVC, Tomcat, JavaMailSender

Key Contributions:

- Created backend modules for academic session setup, term configuration, and date-based validations.
- Designed admin panel to control start/end dates and manage access per session.

SMART EXPENSE TRACKER

A web-based system for managing and tracking personal expenses. Users can record income, categorize spending, and view detailed financial reports for better budgeting.

Tools & Technologies:

Java, Spring Boot, JSP/Servlets, MySQL, Spring MVC, Tomcat, JavaMailSender

Key Contributions:

- Built backend modules for expense tracking and data validation.
- Designed an admin panel to manage budgets and spending limits.
- Added email alerts and monthly summaries using JavaMailSender.

EDUCATION

University Background

Adventist University of Central Africa (AUCA)

Major in Software Engineering

Bachelor of Science in Information Technology

Diploma A1 in Software Engineering/IT

Secondary Background

Petit Semaire Virgo fidelis De Butare

High School Diploma
